

GDPR Representation

According to Article 27 GDPR.

The General Data Protection Regulation (GDPR) applies from May 25, 2018 as Union Law and obliges all companies outside the EU to designate a representative in the EU, if they process personal data of EU residents and do not maintain an establishment in the EU.

Compliance with European data protection regulations. Execution of representation duties in accordance with the EU regulation – representation of interests vis-à-vis the authorities and clients.

At a glance

Your designated EU-Representative

ACOLIN represents your non-EU based company.

Challenges

- As an asset manager, you may process personal data related to investors within the EU
- You have to designate a representative anywhere within the EU where relevant data subjects reside
- Supervisory authorities and data subjects have the right to contact you on all issues related to data processing, for the purposes of ensuring compliance with the GDPR
- Records of processing activities have to be maintained by your non-EU based company

What does the GDPR mean by 'processing personal data'?

According to Art. 4 GDPR, 'personal data' means any information relating to an identified or identifiable natural person. This includes, but is not limited to

- Names
- Email addresses and
- Financial information

'Processing' means any operation or set of operations which is performed on personal data. This includes but is not limited to

- Collecting and
- Storing

Do you process personal data?

As an asset manager you typically collect and store data of your investors especially through subscription forms and the like. This falls under the scope of the GDPR.
