

Publication & Document Dissemination

Online publishing platform for fund data, legal and marketing documents.

ACOLIN InfoTech offers fund providers a platform to publish their fund data and documents. Approved by FINMA, fundpublications.com brings fund providers and investors closer and ensures quality, accuracy, and regulatory requirements.

ACOLIN InfoTech's Publication Service enables fund providers to fulfil their publication requirements. In addition, fund data and documents become visible to a broad audience of asset managers. According to local regulations, legal and marketing documents as well as legal notices will be disseminated in relevant countries and be available to a large number of investors.

At a glance

- Review of documentation to ensure quality, accuracy, and regulatory requirements
- Publication of documents in relevant countries according to local regulations
- Provide regulatory fund documents to specified distributors and other recipients
- Validation of documents and inclusion of required meta-data

Publication and Dissemination Services

On fundpublications.com, interested investors find most important fund information.

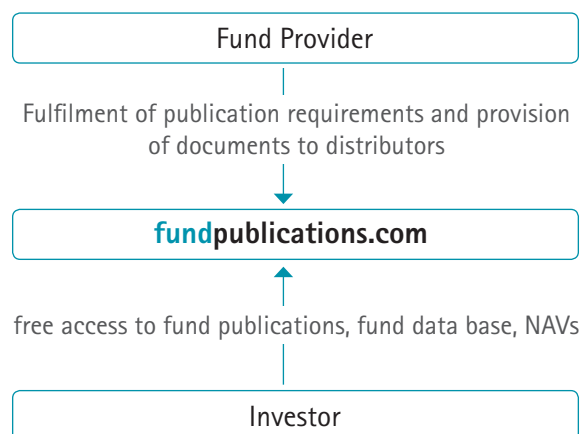

Meeting publication requirements and getting investors' attention, fund providers can benefit from ACOLIN InfoTech's publication and dissemination services in many ways.

Benefits

- **International:** Comply with publication requirements throughout Europe, Hong Kong and Singapore
- **Efficient:** automated data transfer based on openfunds standards
- **Apparent to investors:** Investors can rely on receiving complete and high-quality information
